Details of instruments/facilities in Annexure-1.

## Rationale and key rating drivers

For arriving at ratings, CARE Ratings Limited (CareEdge Ratings) has analysed credit profile of HDB Financial Services Limited (HDBFS) on a standalone basis while factoring in the strong support from promoter and linkages with HDFC Bank Limited (HBL; rated 'CARE AAA; Stable, 'CARE A1+') in the form of financial flexibility, management oversight, shared branding name and logo.

Reaffirmation of ratings to enhanced debt instruments of HDBFS factors in recent equity raise of ₹2,500 crore through IPO which has strengthened its capital structure. Healthy capitalisation levels coupled with strong retail franchise are expected to further support HDBFS asset under management (AUM) growth in the medium term. Ratings continue to factor in HDBFS strategic importance to and expectation of continued support from its parent and majority shareholder. Post initial public offer (IPO), HBL continues to remain majority shareholder in HDBFS, holding 74.19% in the company and a strong financial flexibility which enables raising of funds from diverse avenues at competitive rates.

<sup>&</sup>lt;sup>1</sup>Complete definition of ratings assigned are available at <a href="https://www.careratings.com">www.careratings.com</a> and other CARE Ratings Limited's publications.

However, CareEdge Ratings, takes cognisance of the company's presence in relatively riskier segments which exhibit sharper vulnerability in economic slowdowns and cyclicality. However, HDBFS stringent underwriting and provisioning buffers provides comfort.

The rating assigned to the perpetual debt factors in the capital buffer and profitability maintained by HDBFS, in addition to the parentage of HBL. HDBFS has been maintaining adequate cushion (above 350 bps) over the minimum regulatory requirement, supported by periodic capital infusion by HBL and accretion of profits. CareEdge Ratings expects HDBFS to maintain similar capital cushion over and above the regulatory capital adequacy requirements going forward.

# Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

Not applicable

# Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Material dilution in the ownership of, expected support from, and strategic importance to HBL
- Deterioration in credit profile of HBL
- Moderation in capital buffers of both HDBFS and HBL with considerable decline in capital adequacy ratio close to the regulatory requirement
- Deterioration in business growth and profitability on a sustained basis
- Material dilution in asset quality parameters on a sustained basis

## **Analytical approach:**

Standalone, while factoring in support from and linkages with HBL, in the form of financial flexibility, management oversight, shared branding, and logo.

#### Outlook: Stable

The stable outlook factors in expectations that HDBFS will remain strategically important to HBL and will continue to receive need-based support from HBL. On the business front, CareEdge Ratings expects the company to maintain its healthy credit profile supported by strong retail franchise.

## **Detailed description of key rating drivers:**

## **Key strengths**

# Strong parentage, shared brand name, continued capital support from and strategic importance to parent HBL

Being a subsidiary of HBL, HDBFS remains a strategically important entity for HBL and receives continued need-based support from HBL. HBL is the largest private sector bank in India with standalone total assets of ₹44,56,048 crore as on June 30, 2025, and has been identified as Domestic Systemically Important Bank (DSIB) by the Reserve Bank of India (RBI). HDBFS also has strong linkages with HBL in terms of sharing brand name and logo which enhances its financial flexibility. HBL also provides strategic oversight with representations on Board and crucial Committees. Jimmy Tata, Chief Credit Officer − HBL is also Non-Executive Director (Non-Independent) of HDBFS.

The company's operations are independently run by professional management team headed by G Ramesh (MD and CEO) who has over two decades of experience across business development, banking, consumer finance and operations, assisted by a team

of senior professionals. HDBFS Board comprises seven Independent Directors, two additional Independent Directors and one Non-Executive director, having extensive experience across the spectrum of banking and financial services.

Given the shared brand name and expectations of continued support from the parent, HDBFS's ratings derive significant strength from HBL and material weakening in HBL's credit profile and/or dilution of HDBFS's strategic linkages with HBL will be considered as a credit negative.

# Established presence in granular retail segment with healthy share of secured loan portfolio and diversified product profile

HDBFS is one of the leading players in retail financing space and its lending profile mainly encompasses credit to underbanked customers in Tier III and below towns/ areas with diversified loan book having 73:27 mix of secured vs unsecured businesses. As on March 31, 2025, over 70% of branches were in Tier 4 and smaller towns, targeting India's underbanked population. The branch distribution is balanced with 32% in the north, 17% in the east, 26% in the south, and 25% in the west.

As on March 31, 2025, Enterprise lending (primarily comprising LAP, business loan, enterprise business loan, gold loans and salaried personal loans) continued to account for majority share of AUM with a share of 39.3% (As on March 31, 2024: 40.8%), followed by Asset finance (primarily comprising commercial vehicle, construction equipment and tractor financing) at 38.0% (As on March 31, 2024: 37.9%) and Consumer finance (primarily comprising auto loans, relationship personal loans, consumer durable loans, two wheeler and micro lending) at 22.7% (As on March 31, 2024: 21.3%).

As on March 31, 2025, 11.57% of HDB's loan book comprised "new to credit" customers. Its diverse customer base includes salaried individuals, self-employed professionals, and small business owners. Concentration risk remains low, with the top 20 customers accounting for just 0.34% of AUM.

In the last five years, the company developed a strong franchise and geographical reach with presence in 1,171 locations with network of 1,771 branches as on March 31, 2025.

# Comfortable capitalisation supported by internal accruals and strong capital raising ability

Strong ability to raise capital and internal accruals have helped HDBFS to maintain comfortable capital adequacy ratio (CAR) which stood at 19.22% with Tier-I CAR at 14.67% as on March 31, 2025 (March 2024: CAR - 19.25% and Tier-I CAR - 14.12%). The company reported tangible net worth (TNW) and gearing of ₹14,445 crore and 6.11x as on March 31, 2025. In Q1FY26, HDB raised fresh capital of ₹2,500 crore through IPO, boosting TNW to ₹17,766 crore. This also led to improved CAR at 20.18%, with Tier-I CAR at 15.71%, and gearing at 5.15x as on June 30, 2025.

Strong linkages with HBL also provide HDBFS a healthy financial flexibility and enables it to raise resources at competitive rates and tenors. As on March 31, 2025, borrowings mix remained well diversified with debt markets instruments constituting 61.64% of total borrowings and borrowings from banks forming the balance. This diversified borrowing strategy helps HDB maintain a sustainable and well-managed maturity profile for its debt. Furthermore, company aims to match fixed to floating proportion of its borrowings aligned with lending profile to protect earnings from adverse interest rate movements. As on June 30, 2025, average cost of borrowings stood at 7.74%. As on March 31, 2025, 66.91% of the total borrowings were subject to fixed interest rates, with 33.09% of the total borrowings subject to floating interest rates.

With a more accommodative regulatory stance and frontloaded repo rate cuts, CareEdge Ratings expects HDBFS to benefit from lower funding costs going forward.

## **Comfortable profitability metrics**

HDBFS disbursements grew by compound annual growth rate (CAGR) of 17% for last three years. Backed by consistent disbursements, the company's AUM increased from ₹90,235 crore as on March 31, 2024, to ₹1,07,262 crore as on March 31, 2025. However, the same moderated in Q1FY26, due to challenges in the few segments and industry. HDBFS' yield on portfolio has remained broadly range bound and stood at 14.56% in FY25. Increase in borrowing costs across industry led to contraction in the company's net interest margin (NIM) in FY25 decreasing from 7.83% in FY24 to 7.44%. Given that 38% of the company's overall borrowings are bank borrowings, largely linked to repo or T-bill rates, the recent repo rate cut by the RBI is expected to lower the company's cost of funds, leading to improvement in NIM. Additionally, a decline in BPO income reduced the company's other income. Rising delinquencies caused credit costs to increase to 2.1% in FY25, up from 1.3% in FY24, which led to moderation in overall profitability (return on total assets [ROTA]) which stood at 2.19% (PY:3.06%) and further to 1.95% in Q1FY26. However, this was partially offset by a reduction in operating expenses to 4.7%, compared to 6% in FY24, due to reduced reliance on a single vendor for BPO services (offered by HDBFS) led to decrease in opex cost (opex/ATA) and other income (fee and other income/ATA) which stood at 4.70% and 2.48% in FY25.

CareEdge Ratings expects ROTA to be in the range of 2% to 2.5% going forward supported by likely reduction in borrowing costs.

## **Key weaknesses**

## Moderate asset quality and presence in unsecured and relatively riskier segments

HDBFS primarily operates in Tier 3 and below geographies, which constituted 79% of its portfolio as of June 30, 2025. These regions are associated with relatively riskier asset classes, given the heightened vulnerability of borrower cash flows to economic shocks. Given the significant uptick in the portfolio growth for last two years and macro-economic headwinds, the company faced asset quality challenges in the unsecured loan book and asset financing segment, resulting in increase in gross non-performing assets (GNPA) and net non-performing assets (NNPA) levels from 1.90% and 0.63% respectively as on March 31, 2024, to 2.26% and 0.99% as on March 31, 2025, and further to 2.56% and 1.11% as on June 30, 2025. With a view to mitigate risk, the company has been increasing provision cover mainly for unsecured product categories. As on March 31, 2025, the company's loan book remains largely secured, with 73.01% of loan book backed by collaterals, helping to mitigate potential credit losses.

The company maintains a sharp focus on asset quality, supported by prudent underwriting, proactive collections, and robust provisioning buffers. Its strong risk controls and early warning systems help to monitor risk.

While CareEdge Ratings acknowledges the presence of a secured loan book, asset quality will remain a key area of focus going forward, especially considering recent flooding across North and West India — regions accounting for 57% of the overall portfolio.

# **Liquidity**: Strong

As on June 30, 2025, HDBFS' liquidity position remained strong with positive cumulative mismatches in all the buckets. Over the next one year (July 01, 2025 till June 30, 2026), the company has repayments (including interest) of ₹40,109 crore. Against this, the company has adequate liquidity in the form of cash and liquid investments of ₹4,024 crore and scheduled asset inflows (including interest) of ₹66,000 crore. Additionally, HDBFS's strong resource raising ability and unutilised bank lines of ₹4,941 crore provides comfort.

**Assumptions/Covenants:** Not applicable

# Environment, social, and governance (ESG) risks

Although HDBFS service-oriented business model limits its direct exposure to environmental risks, credit risk may arise if operations of any asset class of the portfolio are adversely impacted by environmental factors. Social risks in the form of cybersecurity threat or customer data breach or mis-selling practices can affect HDBFS regulatory compliance and reputation and hence remain a key monitorable. HDBFS Board comprises nine Directors, with six Independent Directors and one female Director.

#### About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. #### Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
