SECTION – III RISK FACTORS

The following are the risks envisaged by the management of the Company relating to the Company, the Debentures and the market in general. Potential investors should carefully consider all the risk factors stated in this Shelf DD and/or the relevant Supplemental DD(s) and/or the Private Placement Offer cum Application Letter(s) in relation to the Debentures for evaluating the Company and its business and the Debentures before making any investment decision relating to the Debentures. The Company believes that the factors described below represents the principal risks inherent in investing in the Debentures but does not represent that the statements below regarding the risks of holding the Debentures are exhaustive. The ordering of the risk factors is intended to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another. Potential Investors should also read the detailed information set out elsewhere in this Shelf DD and in the relevant Supplemental DD(s) and/or the Private Placement Offer cum Application Letter(s) and reach their own views prior to making any investment decision. Each of the risk factors set out in this Shelf DD shall, *ipso facto*, without the requirement of any further act, deed or reference by the Company, unless specifically further modified/updated in the Supplemental DD, *mutatis mutandis* be deemed to apply to and be repeated in each Supplemental DD, issued by the Company in relation to any Tranche/Series of the Debentures.

If any one of the following stated risks actually occurs, the Company's business, financial conditions and results of operations could suffer and, therefore, the value of the Company's Debentures could decline and/or the Company's ability to meet its obligations in respect of the Debentures could be affected. More than one risk factor may have simultaneous effect with regard to the Debentures such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No prediction can be made as to the effect that any combination of risk factors may have on the value of the Debentures and/or the Company's ability to meet its obligations in respect of the Debentures.

These risks and uncertainties are not the only issues that the Company faces. Additional risks and uncertainties not presently known to the Company or that the Company currently believes to be immaterial may also have a material adverse effect on its financial condition or business. Unless specified or quantified in the relevant risk factors, the Company is not in a position to quantify the financial or other implications of any

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

risk mentioned herein below.

3.1 INCREASING COMPETITION FROM BANKS, FINANCIAL INSTITUTIONS AND OTHER NBFCs

The successful implementation of Company's growth plans depends on its ability to face the competition. The main competitors of the Company are other NBFCs, financial institutions and banks. The Company, being a non-deposit taking NBFC, does not have access to low cost deposits because of which it may become less competitive. Many of its competitors have significantly greater financial, technical, marketing and other resources. Many of them also offer a wider range of services and financial products than the Company does and have greater brand recognition and a larger client base. As the Company ventures into offering newer products, it is likely to face additional competition from those who may be better capitalised, have longer operating history and better management. If the Company is unable to manage its business and compete effectively with current or future competitors, it might impede its competitive position and profitability.

3.2 CREDIT RISK

Any lending and investment activity by the Company is exposed to credit risk arising from interest / repayment default by borrowers and other counterparties. Being an NBFC, the Company has lent money for various maturities and with varying security to a number of institutional and non-institutional clients. The assets under management of the Company were Rs. 55,425 crore as on March-2019. The Company is exposed to the risk of such third parties which owe money, securities or other assets not performing their obligations due to various reasons.

The Company has institutionalised a systematic credit evaluation process monitoring the performance of its asset portfolio on a regular and continual basis to detect any material development, and constantly evaluate the changes and developments in sectors in which it has substantial exposure. The Company will also endeavour to undertake a periodic review of its entire asset portfolio with a view to determine the portfolio valuation, identify potential areas of action and devise appropriate strategies thereon. Despite these efforts, there can be no assurance that repayment default will not occur and/or there will be no adverse effect on the Company's financial results and/or operations as a result thereof.

In performing its credit assessment, the Company relies largely on information furnished by or on behalf of its borrowers, including financial information, based on which the Company performs its credit assessment. The Company may also depend on certain representations and undertakings as to the accuracy, correctness and completeness of information, and the verification of the same by agencies to which such functions are outsourced. Any such information if materially misleading may increase the risk of default and could adversely impact the financial condition, financial results and/or operations of the Company.

A substantial portion of the Company's assets under management (excluding inter-corporate deposits) is secured by assets, moveable and immovable. The value of the security/collateral granted in favour of the Company, as the case may be, may decline due to adverse market and economic conditions (both global and domestic), delays in insolvency, winding up and foreclosure proceedings, defects in title, difficulty in locating moveable assets, inadequate documentation in respect of assets secured and the necessity of obtaining regulatory approvals for the enforcement of the Company's security over the assets comprising

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

its security and the Company may not be able to recover the estimated value of the assets, thus exposing it to potential losses.

Any delay in enforcing the collateral due to delays in enforcement proceedings before Indian courts or otherwise could also expose the Company to potential losses. Although the Company regularly reviews its credit exposures, defaults may arise from events or circumstances that are difficult to detect or foresee.

3.3 REPAYMENT OF PRINCIPAL IS SUBJECT TO THE CREDIT RISK OF THE COMPANY

Potential investors should be aware that receipt of principal amount and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Company. Potential investors assume the risk that the Company will not be able to satisfy its obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Company, the payment of sums due on the Debentures may be substantially reduced or delayed.

3.4 NON-PERFORMING ASSETS ("NPA")

If the level of NPAs in the Company's portfolio were to increase, its business would suffer. The Company had net NPAs as a percentage of net loan assets were 1.12% and 0.96% as of March 31, 2019 and March 31, 2018, respectively and its provisioning norms comply with the RBI guidelines / directives. The Company believes that its overall financial profile, capitalization levels and risk management systems, provide significant risk mitigation. However, the occurrence of NPAs or an increase in the level of NPAs will adversely affect the Company's business, financial results and/or operations.

3.5 INTEREST RATE RISK

The Company's interest income from lending and gains from trading in debt securities are dependent upon interest rates and their movement. Interest rates are highly sensitive to many factors beyond the control of the Company, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other factors. Due to these factors, interest rates in India have historically experienced a relatively high degree of volatility. Consequently, there can be no assurance that significant interest rate movements will not have an adverse effect on the Company's financial results and/or operations.

3.6 ACCESS TO CAPITAL MARKETS AND COMMERCIAL BORROWINGS

With the growth of its business, the Company will increasingly rely on funding from the debt capital markets and commercial borrowings. The Company's growth will depend on its continued ability to access funds at competitive rates which in turn will depend on various factors including its ability to maintain its credit ratings. If the Company is unable to access funds at an effective cost that is comparable to or lower than its competitors, the Company may not be able to offer competitive interest rates for its loans or have adequate funds for its investment activities. This may adversely impact its business results and its future financial performance.

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

3.7 ASSET LIABILITY MISMATCH

The Company is a “systemically important non-deposit taking non-banking financial company” (NBFC – ND – SI) and does not have access to public deposits. The Company meets its funding requirements through a resource mix of bank term loans, commercial paper and debenture issuances thus, some portion of the assets has medium term maturities thereby exposing the Company to liquidity risk. Potential funding mismatches can be created if short term funding sources are not available to the Company. This could have a negative impact on the business and future financial performance of the Company.

3.8 OPERATIONAL AND SYSTEM RISK

The Company is faced with operational and system risks, which may arise as a result of various factors, viz., improper authorizations, failure of employees to adhere to approved procedures, inappropriate documentation, failure in maintenance of proper security policies, frauds, inadequate training and employee errors. Further, there can also be a security risk in terms of handling information technology related products such as system failures, information system disruptions, communication systems failure which involves certain risks like data loss, breach of confidentiality and adverse effect on business continuity and network security.

If any of the systems do not operate properly or are disabled or if other shortcomings or failures in internal processes or systems are to arise, this could affect the Company's operations and/or result in financial loss, disruption of Company's businesses, regulatory intervention and/or damage to its reputation. In addition, the Company's ability to conduct business may be adversely impacted by a disruption (i) in the infrastructure that supports its businesses and (ii) in the localities in which it is located.

Any failure, inadequacy and security breach in our computer systems may adversely affect our business. Our operations depend on our ability to process a large number of transactions on a daily basis across our network of offices. The financial, accounting or other data processing systems of the Company may fail to operate adequately or become disabled as a result of events that are beyond its control, including a disruption of electrical or communications services, particularly in the rural areas in which the Company operates.

The Company's operations also rely on the secure processing, storage and transmission of confidential and other information in our computer systems and networks. Its computer systems, software, including software licensed from vendors and networks may be vulnerable to unauthorised access, computer viruses or other malicious code and other events that could compromise data integrity and security and result in identity theft, for which the Company could potentially be liable.

3.9 ANY INABILITY OF THE COMPANY TO ATTRACT OR RETAIN TALENTED PROFESSIONALS MAY IMPACT ITS BUSINESS OPERATIONS

The business in which the Company operates is very competitive and ability to attract and retain quality talent impacts the successful implementation of growth plans. The Company may lose many business opportunities and business would suffer if such required manpower is not available on time. The inability of the Company to replace manpower in a satisfactory and timely manner may adversely affect its business and future financial performance.

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

3.10 EMPLOYEE MISCONDUCT

Any kind of employee misconduct may impair the Company's ability to service clients. It is not always possible to deter employee misconduct and the precautions the Company takes to detect and prevent this activity may not be effective in all cases.

3.11 DOWNGRADING IN CREDIT RATING

CARE Ratings Limited ("CARE") has assigned a "CARE AAA/Stable" (pronounced "CARE Triple A with stable outlook") and CRISIL Limited ("CRISIL") has assigned a "CRISIL AAA/Stable" (pronounced "CRISIL Triple A with stable outlook") rating to the Issue. Further, in respect of the Market Linked Debentures proposed to be issued by the Company as part of the Issue, the same have been assigned a rating of "CARE PP-MLD AAA/ Stable" (pronounced CARE PP MLD triple A rating with stable outlook) by CARE and also a rating of "CRISIL PP-MLD AAAr/Stable" (Pronounced CRISIL PP-MLD triple A r rating with Stable Outlook) by CRISIL. The Company cannot guarantee that this rating will not be downgraded. In the event of deterioration in the financial health of the Company, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. In such cases, potential investors may have to take losses on re-valuation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms. Such a downgrade in the credit rating may lower the value of the Debentures and/or the Company's ability to meet its obligations in respect of the Debentures could be affected.

3.12 NO DEBENTURE REDEMPTION RESERVE

As per the provisions of sub-rule 7(b)(i) of Rule 18 of the Companies (Share Capital and Debentures) Rules, 2014, NBFCs are exempt from the requirement of creation of debenture redemption reserve in respect of privately placed debentures. Pursuant to this rule, the Company does not intend to create any such reserve funds for the redemption of the Debentures and the Debenture holder(s) may find it difficult to enforce their interests in the event of a default.

3.13 SECURITY MAY BE INSUFFICIENT TO REDEEM THE DEBENTURES

In the event that the Company is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may enforce the Security as per the terms of the Debenture Trust Deed and other related documents. The Investors recovery in relation to the Debentures will be subject to (i) the market value of the property offered as security, and (ii) finding a willing buyer for such security at a price sufficient to repay the potential investors' amounts outstanding under the Debentures.

3.14 TAX AND OTHER CONSIDERATIONS

Special tax, accounting and legal considerations may apply to certain types of potential investors. Potential investors are urged to consult with their own financial, legal, tax and other professional advisors to determine any financial, legal, tax and other implications of an investment into the Debentures.

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

3.15 COMPANY'S INDEBTEDNESS AND COVENANTS IMPOSED BY ITS FINANCING ARRANGEMENTS MAY RESTRICT ITS ABILITY TO CONDUCT ITS BUSINESS OR OPERATIONS

Company's financing arrangements require it to maintain certain security cover for some of its borrowings. Should there be any breach of financial or other covenants of any financing arrangements and such breach continues beyond the stipulated cure period, the Company may be subjected to various consequences as a result of such default including forced repayment of such borrowings. Further, under some of the financing arrangements, the Company is required to inform / obtain prior approval of the lenders / debentures holders / debenture trustee for various actions. This may restrict / delay some of the actions / initiatives of the Company from time to time.

EXTERNAL RISK FACTORS

3.16 THE DEBENTURES MAY BE ILLIQUID

The Company intends to list the Debentures on the WDM segment of the BSE. The Company cannot provide any guarantee that the Debentures will be frequently traded on the Stock Exchange and that there would be any market for the Debentures. The current trading of the Company's existing listed non-convertible debentures may not reflect the liquidity of the Debentures being offered through the Issue. It is not possible to predict if and to what extent a secondary market may develop for the Debentures or at what price the Debentures will trade in the secondary market or whether such market will be liquid or illiquid. The fact that the Debentures may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

The Company may, but is not obliged to, at any time purchase the Debentures at any price in the market or by tender or private agreement. Any Debentures so purchased may be resold or surrendered for cancellation. The more limited the secondary market is, the more difficult it may be for holders of the Debentures to realise value for the Debentures prior to settlement of the Debentures.

Further, the Company may not be able to issue any further Debentures, in case of any disruptions in the securities market.

3.17 FUTURE LEGAL AND REGULATORY OBSTRUCTIONS

Future government policies and changes in laws and regulations in India (including their interpretation and application to the operations of the Company) and comments, statements or policy changes by any regulator, including but not limited to SEBI or RBI, may adversely affect the Debentures, and restrict the Company's ability to do business in its target markets. The timing and content of any new law or regulation is not within the Company's control and such new law, regulation, comment, statement or policy change could have an adverse effect on its business, financial results and/or operations.

Further, SEBI, the relevant Stock Exchange(s) or other regulatory authorities may require clarifications on this Shelf DD, which may cause a delay in the issuance of Debentures or may result in the Debentures being materially affected or even rejected.

Shelf Disclosure Document Issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

3.18 MATERIAL CHANGES IN THE REGULATIONS GOVERNING THE COMPANY

NBFCs in India are subject to detailed supervision and regulation by the RBI, though currently NBFCs not accepting public deposits are exempt from many provisions. In addition, the Company is generally subject to changes in Indian law, as well as to changes in regulations and policies and accounting principles. The RBI also requires the Company to make provisions in respect of NPAs. Any changes in the regulatory framework affecting NBFCs including risk weights on assets and/or provisioning norms for NPAs and/or capital adequacy requirements could adversely affect the profitability of the Company or its future financial performance by requiring a restructuring of its activities, increasing costs or otherwise. The Company is classified as a NBFC-ND-SI as defined in the RBI guidelines, which is subject to certain statutory, regulatory, exposure and prudential norms and this may limit the flexibility of the Company's loans, investments and other products.

3.19 A SLOWDOWN IN ECONOMIC GROWTH IN INDIA

The Company's performance and the quality and growth of its assets are necessarily dependent on the health of the overall Indian economy. A slowdown in the Indian economy or a fall in India's GDP may adversely affect its business, including its ability to enhance its asset portfolio and the quality of its assets, and its ability to implement certain measures could be adversely affected by a movement in interest rates, or various other factors affecting the growth of industrial, manufacturing and services sector or a general downtrend in the economy. Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact the Company's ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available.

3.20 POLITICAL INSTABILITY OR CHANGES IN THE GOVERNMENT COULD DELAY FURTHER LIBERALIZATION OF THE INDIAN ECONOMY AND ADVERSELY AFFECT ECONOMIC CONDITIONS IN INDIA GENERALLY

If there was to be any slowdown in the economic liberalization, or a reversal of steps already taken, it could have an adverse effect on the Company's business. Financial difficulties and other problems in certain financial institutions in India could cause the Company's business to suffer. The Company is exposed to the risks of the Indian financial system, which in turn may be affected by financial difficulties, trends and other problems faced by certain Indian financial institutions. The problems faced by such Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create an adverse market perception about Indian financial institutions, banks and NBFCs. This in turn could adversely affect the Company's business, its future financial performance and its shareholders' funds.

3.21 ACTS OF GOD, TERRORIST ATTACKS, CIVIL UNREST AND OTHER ACTS OF VIOLENCE OR WAR INVOLVING INDIA AND OTHER COUNTRIES COULD ADVERSELY AFFECT THE FINANCIAL MARKETS AND THE COMPANY'S BUSINESS

Acts of God, terrorist attacks and other acts of violence or war may negatively affect the Indian markets and may also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence. In addition, adverse social, economic and political events in India could have a negative impact on the Company. Such incidents could also create a perception that investment in Indian companies involves a higher degree of risk which could have an adverse impact on the Company's business.

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

3.22 THE COMPANY'S BUSINESS MAY BE ADVERSELY IMPACTED BY NATURAL CALAMITIES OR UNFAVOURABLE CLIMATIC CHANGES

India has experienced natural calamities such as earthquakes, floods, droughts and a tsunami in recent years. India has also experienced pandemics, including the outbreak of avian flu and swine flu. The extent and severity of these natural disasters and pandemics determine their impact on the economy and in turn their effect on the financial services sector of which the Company is a part cannot be ascertained or predicted but could adversely affect the Company. Prolonged spells of abnormal rainfall and other natural calamities could have an adverse impact on the economy which in turn could adversely affect the financial results and/or operations of the Company.

SPECIFIC RISK FACTORS PERTAINING TO MARKET LINKED DEBENTURES

Apart from the other risk factors (to the extent applicable) set out herein, in relation to the Market Linked Debentures, the following non-exhaustive list of risk factors shall also be applicable:

3.23 STRUCTURE AND MODEL RISKS

An investment in the Debentures where the payment of coupon payable or deliverable thereon is determined by reference to Indexes will entail significant risks not associated with a conventional fixed rate or floating rate debt security. Such risks include, without limitation, changes in the level or value of the relevant underlying equity basket and the Debenture holder may receive a lower (or no) amount of coupon or other consideration than the Debenture Holder expected. The Company has no control over a number of matters that are important in determining the existence, magnitude and longevity of such risks and their results, including, but not limited to, economic, financial and political events. In addition, if an index or formula used to determine any amounts payable or deliverable in respect of the Debentures contains a multiplier or leverage factor, the effect of any change in such index or formula will be magnified. In recent times, the values of certain indices, baskets and formulas have been volatile in the past and volatility in those and other indices, baskets and formulas may occur in the future. In any event, the return on the Debentures is at risk. The return/coupon on the Debentures is also at risk if the Debentures are not held till or for any reasons have to be sold or redeemed before the Redemption Date. The Debentures are a principal protected product only upon maturity. The Debentures are created on the basis of complex mathematical models involving multiple derivative exposures which may or may not be hedged and the actual behavior of the Underlying / Reference Index selected for hedging may significantly differ from the returns predicted by the mathematical models.

3.24 UNCERTAIN TRADING MARKETS

The Company cannot assure Debenture holders that a trading market for their Debentures will ever develop or be maintained. Many factors independent of the creditworthiness of the Company affect the trading market of the Debentures. These factors include:

- (a) the complexity and volatility of the index or formula or other basis of reference applicable to the Debentures,
- (b) the method of calculating the principal, premium and coupon, if any, or other consideration, if any, in respect of the Debentures,

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

- (c) the time remaining to the maturity of the Debentures,
- (d) the outstanding amount of the Debentures,
- (e) the redemption features of the Debentures,
- (f) the amount of other debt securities linked to the index or formula or other basis of reference applicable to the Debentures, and
- (g) the level, direction and volatility of market interest rates generally.

While the Company intends under ordinary market conditions to indicate and/or procure indication of prices for any such Debentures there can be no assurance as to the prices that would be indicated or that the Company will offer and/or cause to purchase any Debentures. The price given will be affected by many factors including, but not limited to, the remaining term and outstanding principal amount of the Debentures, the level of Indexes, fluctuations in interest rates and/or in exchange rates, volatility in the Indexes used to calculate the amount of any coupon or principal payments, and credit spreads. Consequently, prospective Investors must be prepared to hold the Debentures until the Redemption or maturity of the Debentures. Trading levels of any Debentures will be influenced by, among other things, the relative level and performance of Indexes and the factors described above.

No Investor should purchase Debentures unless such investor understands and is able to bear the risk that such Debentures may not be readily saleable, that the value of such Debentures will fluctuate over time, that such fluctuations may be significant and that such investor may lose all or even a substantial portion of its investment in the Debentures if the Debentures are not held till or for any reason have to be sold or redeemed before the maturity date.

3.25 LIQUIDITY RISK

The Debentures may be designed for specific investment objectives or strategies and, therefore, may have a more limited secondary market and experience more price volatility than conventional debt securities. Debenture Holders may not be able to sell such Debentures readily or at prices that will enable them to realize their anticipated yield. Therefore, these Debentures may not be marketable and as such may not be able to be liquidated or sold before maturity, or if liquidated/sold, may only realise an amount that is at a significant discount to the invested amount paid by the Investor. Liquidity on these investments is relatively less than similar grade non-structured fixed coupon debentures. Further, in this regard, the Issuer will not provide or cause to provide any liquidity support for the Debentures.

3.26 INVESTMENT IN THE DEBENTURES WHICH ARE LINKED TO SHARES OR INDICES IS NOT THE SAME AS INVESTING DIRECTLY IN THE SHARES OR INDICES UNDERLYING THE DEBENTURES.

An investment in the Debentures which are linked to shares or indices is not an investment directly in the shares or the indices themselves. An investment in the Debentures entitles the Debenture Holder to certain cash payments calculated by reference to the shares or indices to which the Debentures are linked. The methodology for calculation of coupon on the Debentures is as set out in this Disclosure Document and also to be explained by the scenario analysis to be set out in the Supplemental DD for the relevant Tranche/Series. The Debenture Holder will have no beneficial interest in the shares or basket of shares constituting the index to which the Debentures are linked and accordingly will not have voting rights in those shares. The Debenture Holders will not have the right to receive the underlying shares or basket of shares and thus will not be able to dispose of some or all of such shares at any point in time. Subject to the

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

applicable conditions of the Debentures, the Debenture holder may have no right to receive dividends or other distributions. The Debentures will not represent a claim against the Company of any shares, and, in the event of any loss, a Debenture holder will not have recourse under the Debentures against such the Company, or against any securities issued by such Company.

In the case of Debentures relating to shares, no issuer of such shares has participated in the preparation of the offer document or in establishing the terms of the Debentures and the Company has not made any investigation or enquiry in connection with such offering with respect to the information concerning such company. Consequently, there can be no assurance that all events occurring prior to the relevant Issue Opening Date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph that would affect the trading price of the share) will have been publicly disclosed.

Moreover, the Company has no ability to control or predict any actions of the issuer of such shares, including any corporate actions of the type or redemption that would require the Valuation Agent to adjust the payment to the Debenture holders upon redemption. The issuer of such shares is not involved in the offering of the Debentures in any way and has no obligation to consider a Debenture holder's interest in a Debenture in taking any corporate actions that might affect the value of the Debentures. In particular, factors related to the underlying shares or indices to which the Debentures are linked which are beyond the relevant Company's control include, but are not limited to: (i) the market price or value of such share, index or basket of shares or indices; (ii) the volatility (frequency and magnitude of changes in price) of such share, index or basket of shares or indices; (iii) the dividend rate on such shares; (iv) geopolitical conditions and economic, financial and political, regulatory or judicial events that affect stock markets generally and which may affect the market price of such share, index or basket of shares or indices; and (v) the creditworthiness, including changes in credit ratings and credit spreads of the relevant issuer of such shares. As the price / value / interest rates of the securities underlying the relevant index fluctuates, the value of the index may go up or down. The value of the relevant index can be expected to fluctuate with movements in the broader equity and bond markets and may be influenced by factors affecting capital and money markets in general, such as, but not limited to, changes in interest rates, currency exchange rates, changes in Governmental policies, taxation, political, economic or other developments and increased volatility in the stock and bond markets. Past performance of the sponsor of the relevant index or the issuer of the underlying stocks of such relevant index does not guarantee future performance of the relevant index.

The Underlying/Reference Index constitutes of certain identified stocks spread across various sectors. Hence, sector specific risk factors of such underlying stocks will also be applicable. All risks associated with underlying stocks, including their performance, derivative instruments, stock-lending, and off-shore investments etc., will therefore be applicable in the case of the relevant index. Investors who intend to invest in the Debentures are required to and deemed to have understood the risk factors of the underlying securities comprising the relevant index.

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

3.27 THE COMPOSITION OF THE STOCKS UNDERLYING THE INDEX TO WHICH A DEBENTURE MAY BE LINKED MAY CHANGE OVER TIME.

The composition of the stocks underlying any index to which the Debentures are linked may change over time. The index sponsor may, in its sole discretion, add, delete or substitute the stocks underlying the index or make other methodological changes required by certain corporate events relating to the stocks underlying the index, such as stock splits and dividends, spin-offs, rights issuances and mergers and acquisitions that could change the value of the index. There may be additions to the index to which the Debenture holders may not want exposure, or deletions of stocks to which they would want exposure. The Company does not have any control over the composition or calculation of the index, and the Debenture holders should not place undue reliance on the creditworthiness, business plans or prospects or other factors relating to any particular issuer of stocks underlying the index as of the date hereof.

3.28 RISKS RELATING TO DEBENTURES DUE TO LINKAGES TO THE REFERENCE INDEX

An investment in any series of Debentures that has payments of principal, coupon or both, indexed to the value of any equity share, index or any other rate, asset or index, or a basket including one or more of the foregoing and /or to the number of observation of such value falling within or outside a pre-stipulated range will entail significant risks not associated with a conventional fixed rate or floating rate debt security.

3.29 INTEREST RATE RISK OF THE DEBENTURES

Investors are exposed to the movement of interest rates whenever their Debentures are redeemed, tendered or sold prior to maturity. As interest rates move upwards, the value of the Debentures generally fall. Moreover, the longer the tenor of the Debentures, the more sensitive the Debentures will be to interest rate changes.

3.30 POTENTIAL CONFLICTS

While purchasing or holding any Debentures, the Debenture holder acknowledges that the Issuer, its Affiliates and their respective officers and respective directors may engage in any such activities without regard to this issuance of Debentures or the effect that such activities may directly or indirectly have on the Debentures and the Debenture holder irrevocably waives any claim that it may have in respect thereof. In particular, the following situations may arise:

(a) Transactions involving the underlying

The Issuer and its Affiliates may from time to time engage in transactions involving the underlying for their proprietary accounts and for accounts under their management. Such transactions may have a positive or negative effect on the value of the underlying and consequently upon the value of the Debentures.

(b) Issuing of other debentures in respect of the underlying

The Issuer and its Affiliates may issue other debentures in respect of the underlying and the introduction of such competing products into the market place may affect the value of the Debentures.

Shelf Disclosure Document issued in conformity with Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 issued vide Circular No. LAD-NRO/GN/2008/13/127878 dated June 6, 2008, as amended from time to time and in compliance with SEBI Circular (CIR/IMD/DF/17/2011) on Guidelines for Issue and Listing of Structured Products/ Market Linked Debentures dated September 28, 2011 and the Securities And Exchange Board Of India (Listing Obligations And Disclosure Requirements) Regulations, 2015, as amended from time to time.

(c) Market-Making for the underlying

The Affiliates of the Issuer may, in certain cases, act as a market-maker for the underlying, which might in particular be the case when any of such Affiliates has also issued the underlying. By such market-making, such Affiliate will, to a large extent, determine the price of the underlying, and consequently influence the value of the Debentures itself.

(d) Acting as underwriter or otherwise for the issuer of underlying

The Affiliates of the Issuer may also act as underwriter in connection with future offerings of the underlying or may act as financial adviser to the issuer of an underlying. Such activities could present certain conflicts of interest and may affect the value of the Debentures.

(e) Obtaining of Non-public Information

The Issuer and/or its affiliates may acquire non-public information with respect to the underlying, and neither the Issuer nor any of its affiliates undertakes to disclose any such information to any Debenture Holder.

3.31 NO CLAIM AGAINST REFERENCE INDEX

The Debenture holders do not have any interest in or rights to the Underlying/ Reference Index.

3.32 MARKET FACTORS IN RELATION TO THE UNDERLYING

An investment in the Debentures involves risk regarding the value of the underlying. The value of the underlying may vary over time and may increase or decrease by reference to a variety of factors which may include corporate actions, macroeconomic factors and/or speculation. The historical value (if any) of the underlying does not indicate the future performance of the underlying. The value of the underlying on any day may affect the value of the Debentures on such day. Changes in the composition of the underlying and factors (including those described in these Risk Factors) which either affect or may affect the value of the underlying will affect the value of the Debentures. The market value of the Debentures during their term depends primarily on the value and the volatility of the underlying and the level of interest rates for instruments of comparable maturities. The level of market volatility is not purely a measurement of the actual volatility but is largely determined by the prices for instruments which offer investors protection against such market volatility. Hedging transactions in order to limit the risks associated with the Debentures might not be successful.

OTHER RISKS

An investment in this type of security involves a certain degree of risk. The Investor should carefully consider all the information contained in this Shelf DD, including the risks and uncertainties described herein, before making an investment decision. The risk factors set forth in this Shelf DD do not purport to be complete or comprehensive in terms of all the risks that may arise in connection with our business or any decision to purchase, own or dispose of the Debentures. The risk factors set out herein are determined on the basis of their materiality. In determining the materiality of risk factors, we have considered risks

There can be no assurance that such Affiliates will not compete with existing business or any future business that the Company may undertake or that their interests will not conflict with the Company's interests.
- (ii) The Company may require further funding which may be financed through debt instruments or equity issuance, which may lead to leverage, dilution of equity and may affect the market price of the equity shares of the Company.
- (iii) The growth of the Company will depend on its ability to develop its brand and failure to do so will negatively impact its ability to effectively compete in this industry.
- (iv) The Company operates in businesses which are subject to extensive regulatory requirements and any failure to comply with any of the regulations could subject the Company to penalties or sanctions.

Detailed Rationale & Key Rating Drivers

The ratings factor in the strength that HDB Financial Services Ltd (HDBFS) derives from its parent, HDFC Bank Ltd (HBL; rated 'CARE AAA; Stable', 'CARE A1+') in the form of financial and operational support. The ratings are also supported by good financial performance as well as comfortable asset quality & capitalization of HDBFS. The ratings also take into consideration HDBFS's comfortable liquidity position, diversified resource profile, and experienced management. Continued support from HBL, credit profile of HBL, asset quality, capital adequacy and profitability of HDBFS are key rating sensitivities.

Detailed description of the key rating drivers

Key Rating Strengths

Financial & managerial support and operational linkages with HDFC Bank

HDBFS has strong financial and operational linkage from HBL (rated 'CARE AAA; Stable', 'CARE A1+'). HBL owns majority of shareholding (95.87% as on March 31, 2018) in HDBFS. Senior personnel from HBL have representation on Board of Directors of HDBFS as well as various Board level committees. HDBFS has strong brand linkages with the group. HDBFS also support HBL for sourcing and collection of latter's retail loan portfolio.

Good financial performance

Portfolio of HDBFS has shown strong growth over the years with AUM increasing by nearly 30% to Rs.44,469 Crore as on March 2018 as against Rs.34,277 crore as on March 2017. With an increase in AUM, the total income for FY18 increased by 23.6% to Rs.7,062 crore. Despite higher provisioning in FY18 (increase of 52.8% over FY17), PAT in FY18 was Rs.952 crore, registering a growth of 39.1% over FY17. This was mainly due to improvement in Net Interest Margin which was 7.16% in FY18 (FY17: 6.92%). Return on total assets thus improved by 10 bps in FY18 to 2.44% (FY17: 2.34%).

Comfortable asset quality

Asset quality remains at comfortable level with Gross and Net NPA at 1.58% and 0.98% respectively as on March 31, 2018 (FY17: GNPA 1.45%, NNPA 0.84%). Net NPA to tangible net-worth increased to 6.93% as on March 31, 2018 as against 5.17% as on March 31, 2017. Despite increase in provisioning, Provision Coverage Ratio as on March 31, 2018 stood at 39.71% (FY17: 42.43%).

Comfortable capitalization

Regular capital infusion by HBL, coupled with internal accruals has helped HDBFS to maintain comfortable capital adequacy ratio (CAR) at 17.94% with Tier-I CAR at 13.22% as on March 31, 2018 (FY17: CAR – 20.79%, Tier-I CAR – 15.26%).

Healthy share of secured loan portfolio

HDBFS offers secured loans – loan against property (LAP), commercial vehicle & construction equipment financing (CV & CE), gold loans, loan against securities and unsecured loan – personal loan. Secured loan portfolio stood at 78.1% of total portfolio as on March 31, 2018 (FY17: 79.6%). Loan against Property (LAP) constituted 41.98% of outstanding portfolio as on March 31, 2018, asset finance accounted for 32% of loan book at the end of FY18.

Analytical approach: CARE has analyzed the standalone credit profile of HDBFS along with its strong operational and managerial linkages with its parent, HDFC Bank Ltd.

Detailed Rationale

CRISIL has assigned its 'CRISIL PP-MLD AAA/Stable' rating to the Rs.1000 crore long-term principal protected market-linked debentures of HDB Financial Services (HDBFS). CRISIL has reaffirmed its 'CRISIL AAA/Stable/CRISIL A1+' ratings on the company's bank facilities and other debt instruments.

The ratings reflect benefits that HDBFS derives, from its majority ownership held by HDFC Bank Ltd (HDFC Bank; rated 'CRISIL AAA/Stable'), and its strategic importance to the parent. The shared logo also enhances the moral obligation of HDFC Bank towards this entity. The ratings are also underpinned by the company's growing presence in the retail finance space, and its healthy capitalisation and earning profile.

Analytical Approach

For arriving at the ratings, CRISIL has analysed the business and financial risk profiles of HDBFS. CRISIL has factored in strong support that HDBFS is expected to receive from its parent, HDFC Bank, on an ongoing basis and in times of distress.
